

# Did you know...

## you can now book to see a GP or nurse in Trafford on Saturdays?

For patients registered with a surgery in Trafford, Saturday GP and nurse appointments are now available from selected surgeries.

For more information, or to book, speak to your GP surgery's receptionist.

# Your questions answered...

## **How do I get a Saturday appointment?**

Contact your GP surgery during usual opening hours to pre-book an appointment.

## **What sort of appointment can I book?**

You can see a doctor for new concerns or about existing conditions. Or ask to see a nurse for things like blood pressure checks, chronic disease management, smear tests or contraception advice. This is not a walk-in or emergency service.

## **Where will my appointment be?**

You will be given a choice from the appointments available in the borough.

## **Will the doctor or nurse be able to see my medical records?**

Yes. You will need to give them permission to access this information because they may not be your usual GP or from your own surgery. If you are concerned about your health record being available in this way, please speak to the receptionist.

## **What do I do if I need an urgent appointment at the evening or weekend and my GP surgery is closed?**

Call the NHS non-emergency number, 111.
